Description of problem on registration papers needing correction:

The above described registration paper was discovered at:

NAME OF SHOW _____

DATE OF SHOW _____

LOCATION OF SHOW _____

I, as the Official Steward of said Show, will submit this report to the ASPC/AMHR Office. **The owner of said animal has 30 days from the today's date to submit an application for additional markings and color changes, along with the original registration papers to the ASPC/AMHR Office for Correction.**

The owner of said animal will need to submit 4 current photographs of the animal (1) Full profile/side view of left side; (2) Full profile/side view of right side; (3) Full facing forward frontal view; and (4) Full rear view. All four legs must be seen from both sides; markings on face must be visible. All photos should include all parts of the animal available in that view (ears to hooves or nose to tail inclusive) and be unobstructed by any other object or animal. Photos must be a minimum of 3" X 5" and no larger than 5" X 6". Scanned, digital or computer generated photos, if they are received on photographic paper, are acceptable. Additional photos should be submitted to verify markings not seen in the standard four photos (i.e., white on belly, markings under mane area, etc). It is advisable to label each photo with first choice of name and owner's name. Photos will be kept on file.
