

**DISTINGUISHABLE MARKINGS GUIDE**

**MEASURING A MINIATURE HORSE**

The height of a miniature horse is the vertical distance From the last hair of the mane to the ground when the Animal is standing squarely on a level area.

**COLOR CHART**

- BAY --** Chestnut or sorrel with black mane & tail and black points
- BROWN --** Sometimes difficult to distinguish from black or dark bay, but can be decided by taking careful notice of the fine hairs on the muzzle, must have brown mane and tail.
- BUCKSKIN/GOLDEN DUN --** Black mane & tail and usually black points; sometimes black dorsal stripe
- CHESTNUT --** Dark mahogany red or dark reddish-brown; mane & tail usually same color, may be flaxen
- CREMELLO --** Lightest dun-body hairs seem a uniform cream color
- DUN --** Dominant hair is some shade of yellow from mouse color to golden; mane & tail may be lighter or darker than Body; often has dorsal stripe.
- GREY --** Some greys are born blue or almost black with more and more white hairs appearing with age until nearly white
- GRULLO --** Smooth grayish-blue color like a mouse-not a blue roan-always has black mane & tail, usually black lower legs
- PALOMINO --** Bright gold (color of newly minted \$20 gold piece)-white or light mane & tail
- RED DUN --** A dun with a reddish cast to coat; a red mane & tail and often a red dorsal stripe
- ROAN --** Produced by intermingling of white hairs with any color
- SORREL --** Reddish or copper-red coat, mane & tail usually same color, may be flaxen
- WHITE --** Pure white-may have white eyes and pink skin (these are called albinos)
- NON-STANDARD COLORS --** As verified by reference books. FOUR PICTORIAL VIEWS OF NON-STANDARD COLORS REQUIRED.
