- B. Stallion permits are a one-time fee of \$100.00 to the stallion owner. DNA typing of the stallion must accompany the application for a permit to use A.I. When ownership of a stallion changes a \$10.00 permit transfer and recording fee is charged.
- C. All mares and foals must be DNA typed prior to the application for registration being processed by the American Shetland Pony Club, Inc., American Miniature Horse Registry, or American Show Pony Registry. Registration of the foal will only be made if the Registration Section IV – Registration 98 foal's DNA type is in harmony with that of the sire and dam. In addition, all standard registration procedures will be followed. The A.I. Foal Addendum form or insemination report must accompany the foal's registration application.
- D. A Cooled/Frozen Semen Transportation, Collection, and Insemination report shall be filed with the registry within 10 days for each mare inseminated. Reports are a multiple NCR form available at no charge from the Registry Office.
- E. Stallion owners must file the annual standard Stallion Service Report with the Registry Office and designate on the report which mares were bred via A.I.
- F. Stallion and mare owners must be a member of the ASPC/AMHR/ASPR in order to participate.
- G. Permits and the rules published by the registry must have a liability clause stating that all agreements, guarantees, and representations are strictly between the stallion owner and the mare owner. The ASPC/AMHR/ASPR does not endorse nor guarantee the use or participation in any particular A.I. program.
- H. The approval of Artificial Insemination will allow the use of A.I. on premises or off the farm.
- I. If A.I. and natural service are used within 42 days of each other, the resulting foal will be considered an A.I. foal unless otherwise by DNA testing.
